

Registration open for...

Sepsis Masterclass 3

2 February 2016

Rescheduled from December 2015

Session topics to include: paediatric and maternity sepsis, current thinking for calcitonin and antibiotic prescribing, and sepsis in perspective for non-clinical staff (commissioners, coders and service managers).

This event is suitable for both clinical and non-clinical staff.

The event will also be an opportunity to share local learning through networking and poster presentation, and hear about national report findings.

Who should attend? If you are working on sepsis or have a plan to improve sepsis in your area, whether primary care, community, emergency or acute services then you would be welcome at our event which is open to attendees across the south west and west of England regions.

Venue: Taunton Rugby Club, Hyde Park, Hyde Lane, Taunton, TA2 8BU
