

# VOLUME TARGETED (GUIDED) VENTILATION

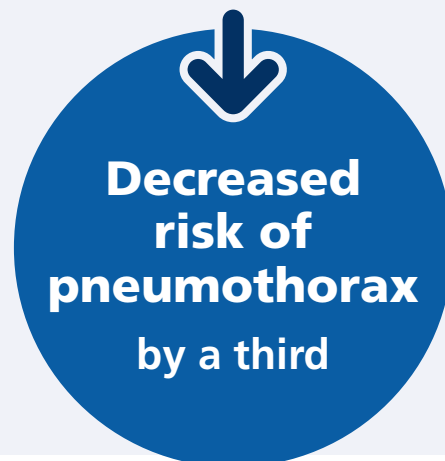

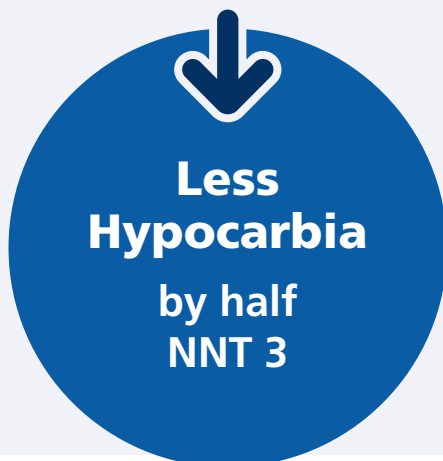

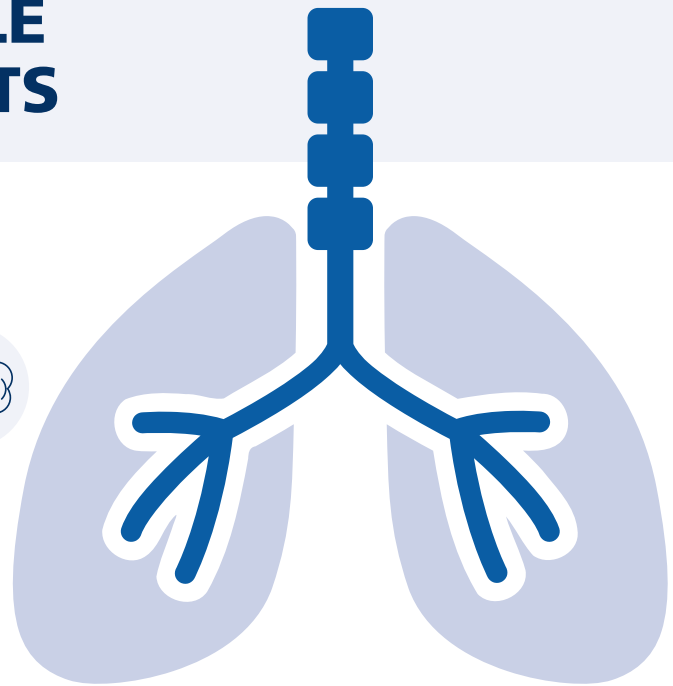

**PATIENT TRIGGERED  
FOR ALL ELIGIBLE  
PRETERM INFANTS**

**Less Grade 3-4 IVH  
by half**

The number of infants we need to treat  
(NNT) to prevent one IVH is **11**

## HOW TO ACHIEVE IT?

Integrate into Unit SOP  
Introduce from induction  
Use VG as soon as possible after intubation
